**BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES.**
HALL & CRANDAL, PROPRIETORS.
Are now running every morning to San
Jose, leaving Berford & Co's office in the
plaza, at 8 o'clock, A. M., and the City Ho-
tel in San Jose at 7 o'clock, A. M.

The reduced rate of fare puts it in the
power of every one to visit the beautiful
and healthful valley of Santa Clara. There
is no more charming drive in California than
that from San Francisco to San Jose, and
as one is whirled rapidly through the oak
openings and across the level plains under
the skillful driving of Professors Dillon or
Crandal, who drive their own coaches, he
finds that pleasure is united with business,
and wonders he has never made the trip
before.

The great advantage this line possesses
over all others, is that the Stages were
bought expressly for the road, and with a
particular attention to safety, while the
drivers, who have served a long apprentice-
ship from New England to Mexico, make
the quickest time and never occur with ac-
cidents, while the stage coaches, which are
the finest of the kind, are new and com-
fortable. We invite our friends to give the line a trial.

**THREE THOUSAND DOL-
LARS REWARD** will be paid for the
apprehension and conviction of one JESSE
J. GRAHAM, who murdered Dennis Bun-
nett, in Cyante, Santa Cruz, State of Califor-
nia, on the 22d of April, A. D. 1850. The
said Jesse J. Graham is about six feet high,
dark complexion, dark eyes, round shoul-
dered, stoops when he walks; has a very
frowning look and speaks through his nose.
It was supposed that he had concealed in
Cyante until the last day of August, or
about the first of September, and when last
seen, was met in company with some others
on the Salinas, on his way to the river
Colorado, and to Texas, where his mother
resides. The above reward will be paid for
his safe delivery at San Francisco, Santa
Cruz, or Monterey; one thousand by the
county of Santa Cruz, the other two thou-
sand by JACKSON BENNETT, brother of
deceased.

PROSPECTUS OF THE SAN DIEGO HERALD.

"There the large olive ruins its amber store
In marble fonts: there grain, and flower, and
fruit,
Gush from the earth until the land runs
o'er."
[Byron.]

The undersigned beg leave to
announce to the public of Cali-
fornia generally, and to the Eng-
lish-speaking population of Southern
California in particular, that they
intend to publish a newspaper at San
Diego, under the above title, the first
number of which will be issued about
the first of January, proximo.

Terms of subscription, \$12 per
annum. In politics, the San Diego
Herald will be independent, but not
neutral; it will be the organ and
engine of no party,—but the impar-
tial advocate of such measures as
shall seem best calculated to promote
the general welfare of the State, and
advance the local interests and prop-
erty of Southern California, or more
immediately of the District of San
Diego.

Its design, however, will by no
means be to engender any sectional
jealousies, or to encourage any mea-
sures at variance with the unity and
harmony of the State. Its paramount
object will be to describe the localities
and unfold the resources of "the
sunny and luxuriant regions of the
South"—to watch over their social
and administrative interests,—and to
promote their welfare by every legiti-
mate means and influence which the
press can employ.

To the American residents in South-
ern California, the publishers will
look for their principal support; and
considering the expense of the under-
taking and its immediate importance
to the local interests of San Diego,
it is hoped that the publication will
meet with liberal encouragement.
Among the inhabitants, however, of
the Northern districts, the *San Diego
Herald* will expect to have many
readers desirous to obtain authentic
information and periodical intelli-
gence from the South.

J. JUDSON AMES & Co.
SAN DIEGO, Nov. 16th, 1850.

[From the National Intelligencer, Sept. 26.]
—HISTORY OF CALIFORNIA.

The following letter from the Gov-
ernor of the State of California, to
the delegate in Congress from the
territory of Oregon, besides its his-
torical value, and the genuine spirit
of an American patriot which it
breathes, is of particular interest at
the present moment, as proving the
fallacy of the charge of undue inter-
ference in California made against
the late lamented President Taylor,
and, at the same time, corroborates
facts set forth in the speech of Mr.
Thurston, the delegate from Oregon,
which have been doubted by some of
those who opposed the admission of
California into the Union:

SAN JOSE, Aug. 7, 1850.
DEAR SIR:—I have had no time
to read the speech you delivered
in the House of Representatives, on
the 25th of March last, until a day
or two since. I must in candor say
I was greatly pleased with it.

You have but done justice to the
people of California, and the relation
they bear towards their brethren of
Oregon. You have been remarkably
accurate in your statement of the
facts and circumstances that led to
the formation of a State constitution;
and when I say your statement is
accurate, I only state that which I
do know, for I took a prominent part
in all the leading movements that
brought about that result. I presume
you have obtained much of your in-
formation from my friend Gilbert,
who is familiar with nearly all the
facts connected with the whole mat-
ter.

After the formation of a local Leg-
islature in San Francisco, and while
I was absent in Sacramento City, and
without my knowledge or consent, I
was elected a member of that body.
This took place in the month of May,
1849. In the latter part of that
month I returned to San Francisco,
where my family had arrived about
the middle of the month. I did not
myself much like the plan of organiz-
ing different local legislatures, as I
doubted the propriety of doing so, if
we could do any better. I deter-
mined, however, that I would take my
seat. The sessions of the body were
held only at night, and the very first
night I took my seat, without pre-
vious consultation with any human
being, I made a motion to appoint a
committee to draught an address to
the people of California, urging them
to hold a convention to form a gov-
ernment for the whole territory.
This motion I supported in several

speeches, and it prevailed. I drew
up the address, which was adopted,
but before we could get it printed,
Gen. Riley's proclamation was out.
We knew nothing of his intention to
issue such a proclamation, and our
movements were entirely independ-
ent of his, and were actually in a
great state of forwardness before the
date of his proclamation, and were
complete before we had any knowl-
edge of it. I believe I have a right
to claim the responsibility of making
the first public movement towards
the formation of a State government.
I know I did not follow General Ri-
ley, or any one else.

We adopted his plan in part for
the purpose of harmony. I was one
of the committee appointed by the
president of the public meeting to fix
upon a time when delegates were to
be chosen, &c., as you state in your
speech.

For myself individually, and as the
first Governor of California, I thank
you for the justice you have done the
long neglected, misrepresented, and
misunderstood people of California.
They have suffered long and patient-
ly; and not only so, but they have
seen, in the only law passed by Con-
gress for their government, a viola-
tion of the fundamental principles of
human liberty. We have been taxed,
not only without representation, but
without government, and lest we
should question the correctness of the
decision of the officer sent hither to
collect these taxes, we are compelled
to go either to Oregon or Louisiana
for justice—which amounts practi-
cally to an utter denial of justice at
all. The bill to extend the revenue
laws over California was evidently
framed to stand alone, and not in
connexion with any other measure.
If those who voted for it did so under
the opinion that a territorial govern-
ment would also be created for Cali-
fornia at the same session, why did
they vote for that feature that sends
us to Oregon or Louisiana for jus-
tice? This I cannot understand. The
bill upon its very face shows that
Congress intended we should feel the
burdens, but not enjoy the benefits of
government.

But I hope that ere this our Pacific
star has been admitted into the glo-
rious Union of States. Such is the
ardent wish of us all. Our country
has neglected and even oppressed us;
but there is not in our hearts one
feeling of revenge, or one sentiment
of enmity. We feel as dutiful chil-
dren towards a kind parent, who has
for once been in error, but whose uni-
form kindness we have so long en-
joyed that we can never forget it.
We can only complain, that our
wrongs may be redressed; but as for
making war upon our country, oh,
never! "Though he slay me, yet
will I trust in him." There is no
earthly object that I so idolize as
that Union. "My heart is in the
coffin there with Cæsar."

Accept assurances of my respect.
Your obedient servant,
PETER H. BUBNETT.
Hon. S. B. THURSTON.

FOREIGN IMPORTS.
We cut the following capital hit
from the *Philadelphia Ledger*, of a
late date. We are glad to perceive
that the good sense of that excellent
journal has enabled it to see things in
California, for once at least, in their
true light.

"When California was first opened
up to American enterprise, it became
the receptacle for all 'things lost upon
earth' to be found in our great cities.
Every dealer in the shoe line, and the
vendors of ready-made clothing, com-
menced searching their cellars and
garrets for articles which fashion had
condemned or worms and moths had
invaded, to supply the new demand
opened up in California. And every
dealer in dry goods who could sell no
more stale trumpery by 'letting on
the Croton' and advertising them as
'goods by the Garriick,' put on new
marks, numbers and sent them to
California. Boston, New York, Bal-
timore, New Orleans and Philadel-
phia, were quite cleaned out of anti-
quated rubbish, and rejoiced in stocks
entirely new.

And California thus became like
the hither bank of the Styx, where
the ghosts divested themselves of
everything which they ever had in
the old world, before they enter the
ferry boat for crossing to the new.
The accounts of enormous bargains,
in which the round-toed boots and
swallow-tailed coats of the last age
sold for their weight in gold dust,
reached Old England in due time, and
excited the same spirit of enterprise
in John Bull. With that keen per-
ception of profit which shows the
common origin of John and Jona-
than, the first resolved to walk in the

footsteps of his illustrious predeces-
sor in this new market, and send his
last clothes to California. John
knew that Jonathan had preceded
him, and kinned the cream of the
market. But John thought that the
skimmed milk was better than none;
and experience had told him that he
might cut into a portion of any mar-
ket where Jonathan was preferred,
by counterfeiting Jonathan's marks
and numbers. Accordingly John
swept his shops from a large quantity
of antiquated and condemned wares,
scoured them into a new face, said
his old shoes were from Lynn, his
old shirts from Lowell, his old hats
from Philadelphia, his old coal hods
from New York, his old jack-knives
from Harper's Ferry, sent them to
California, and like his brother Jona-
than, turned an honest penny by
selling them to the diggers for twen-
ty times their cost and a hundred
times their value.

The success of Jonathan first, and
John afterwards, in shipping old
clothes and damaged wares to Cali-
fornia, has reached the ears of Mons.
Jean Crapaud; and Mons. Jean,
though always behind the Saxon in
finding a market for necessities,
soon follows them and reaps a good
harvest for luxuries. Mons. Jean's
best goods are better than John's or
Jonathan's; for in first qualities, he
relies upon quality and cares little
for cost, and is sure of purchasers
among those who insist on the genu-
ine. In the A number ones, John
has strength without beauty, Jona-
than less strength and more beauty,
Mons. Jean has both in a greater
degree than either. But in the cheap
goods, while Mons. Jean quite equals
the Brummagen worthlessness of
John and the wooden nutmeg fraud
of Jonathan, he far surpasses both in
elegance of form, color and finish.
When cheated in French, the buyer
may console himself with having got
something pretty, however worthless.
He has ver, little of such consolation
when done by Jonathan, and none at
all when done by John. Well then,
Mons. Jean has resolved to try
his luck in California, with his sec-
ond-hand articles of inferior quality,
especially articles of luxury. His
taste in such things is universally
acknowledged. Accordingly we are
told by a French journal published
in Rouen, Normandy, that a ship-
owner is preparing to send to Cali-
fornia, "about 950 women, belonging,
if the truth must be told, to that un-
fortunate class of creatures who live
in our great cities by the wages of
infamy. Some will be taken from
Rouen, some from Rennes, and some
from Orleans, but mostly from Paris.
They are, however, still so young,
that, upon being reformed, they may
yet be useful in an infant colony."
How eminently French! In what a
cool and business-like manner does
Mons. Jean take for granted that,
in the matter of matrimony, the
Americans in California will, *a la
mode de Paris*, and like genuine
Frenchmen, be quite alive to conveni-
ence, and indifferent to every thing
else! To be sure those damaged
goods of France are pretty, "showy,"
"tasty," as the shopkeepers say, and
much superior to the English article
of the same kind. But Jonathan will
probably remember his mother and
sisters and cousins, and look for
something more than a fine finish.
In matrimony, Jonathan is fastidious
in taste, and particularly solicitous
about quality. As California con-
tains a large assortment of English
convicts from Australia, cut-throats
from Mexico and South America,
and rascals from the rest of mankind,
Mons. Jean may be able to trade off
a few choice specimens. But as a
great majority of the Californians
are Yankees, we believe that this
Californicating speculation will fail,
and therefore advise Mons. Jean to
try his own "infant colony" of Al-
giers, where they are all French and
renegade Arabs."

28 years. He is the first and only

showed a very touching letter, dated
last July, from one of the Assistant
Postmasters at Washington, who had
taken the trouble to draw off Mr.
Hewes' account for the last 152
quarters, which gave the latter a bal-
ance of \$1.48.

TUESDAY MORNING, NOV. 26, 1880.

J. WINCHESTER, Editor.
H. L. WINANTS and C. M. BLAKE, Assistant Editors.

THE ELECTION YESTERDAY.

The election for Justice and Constable, yesterday, resulted in the success of the Whig candidates. This will of course be claimed as a "Whig victory," but if we take the votes cast for Col. Gift, a Democrat who very imprudently permitted himself to be run as an "independent," and those for the regular Democratic candidate, the result will hardly be worth crowing over.

The following is the result for both offices:

Justice of the Peace.	
For Orrin Bailey,	527
Thomas A. Lynch,	370
W. W. Gift,	298
Scattering,	11
Constable.	
For Charles Elleard,	467
David W. Thompson,	339
Country McClusky,	180
Charles Bartley,	175
Scattering,	10

There was no necessity for this result. The Democracy must properly organize, present candidates unexceptionable to the masses, and we shall be successful. The manner of making nominations must be changed; better care must be observed, and a due regard had for qualifications, or we shall be beaten at every general and special election. This course taken, and the "independent" candidates will not be presented at every contest, to harass and defeat us.

APPROPRIATIONS.—The civil and diplomatic appropriation bill, which was so long under discussion in the House of Representatives, embraces appropriations amounting \$7,769,208, embracing a great variety of items as usual, and a large number which may be considered extraordinary.

The pay and mileage of members of Congress, the pay of its officers, and the contingent expenses, and books of two houses, amount to more than \$756,000. The expenses of the Secretary of State department amount to \$71,210; of the Treasury Department, consisting chiefly of salaries of officers and clerks, \$380,520; Interior Department \$221,597; War Department \$127,619; Navy \$87,825; five mints, \$211,127; Land Surveyors and clerks \$90,720; surveys of public lands, \$349,759.

Expenses of the territorial governments of Oregon, Minnesota, New Mexico and Utah, \$183,500; Light Houses \$579,076; Marine Hospitals, including \$50,000 for San Francisco, \$162,308; Congressional and other documents, \$97,094; Works of John Adams, \$22,500.

MOKE NEWSPAPERS.—We have heretofore neglected to announce that our old friend James B. Devoe, Esq., is making arrangements to issue a paper at the State Capital, to be devoted to the general interests and prosperity of that section of the state. It will be independent in politics, and from our knowledge of Mr. D. and his ability and acquirements, we have no doubt he will make a journal that will be highly acceptable to all. He has our best wishes for his pecuniary success. The first number of the paper will make its appearance about the first of the coming month.

Arrangements are also making for the issue of a weekly paper at San Diego. Mr. J. Judson Ames, has just returned from that place, and has sufficient encouragement to warrant such an undertaking. On first side of to-day's paper will be found his prospectus. The paper will be called "The San Diego Herald," and will be issued about the first of January next.

DUNDER UND BLITZEN!—We can't stand a half column of bad English, doubly murdered by a translation into worse German,—and therefore we "came in"—the field is lost and won—Rice is the victor! *Lo triumphe!*

N. B. Who would have believed that the junior editor of the Courier knew so much?—certainly we never suspected him of being such an "admirable cricketer."

THE ARRIVALS.—The number of vessels entering our harbor is really a matter of wonder. Within the forty-eight hours ending Sunday night, near sixty sail entered the Golden Gate. The history of the world presents no comparison. The arrivals yesterday were between twenty and thirty sail.

QUARTZ DISCOVERIES.—Every day brings forth new discoveries of quartz veins. A mountain of it has just been discovered about seventy miles above Stockton, on the Merced river. The vein is said to be rich.

ROBBERY.—On Saturday evening the jewelry store of Robt. Sherwood, Montgomery street, was entered while the proprietor was gone to supper, and robbed of a large lot of jewelry, consisting of watches, chains, etc.—valued at over \$2,000.

THE REPUBLIC.—On Friday next, the 29th ult., this well-tried and popular sea-boat is to sail from Panama, and we hear she is already nearly filled to her utmost capacity. We cordially endorse the following paragraph from the *Courier* of Wednesday last:

"This ship is the crack steamer of Law's line, and for comfort, convenience, and the beauty of her interior finish, is not surpassed by any steamer on the Pacific. Her wide-awake agent in this city, OLIVER CHARLICK, has completely re-arranged the whole of her cabins. She has had built a hurricane deck, under which are staterooms, and snug, cozy little parlors for six or eight persons, with marble centre tables, hanging lamps, and all the adjuncts necessary for the complete comfort of the occupants. Doors open from the outside into these little rooms, and large windows may be opened to let the cool sea-breeze enter at will. The main cabin is a magnificent affair—its state rooms are large and comfortable. The panels of the doors, ornamented ceiling, the sofas and lounges, and the long table, which will accommodate sixty or seventy persons without crowding, give this cabin a splendid appearance. The forward cabin, on the same deck, is finely fitted up, and ventilated so that no one can complain of lack of air. This cabin has also a long table at which all the occupants of the berths may be seated at the same time. We forgot to mention that forward, under the hurricane deck, berths on both sides are fitted up in a comfortable manner, and which we consider as desirable as any in the ship.

"The whole ship has been completely renovated, the machinery put in the most perfect order—and last, but not least, our staunch friend, W. W. QUEEN, is her Purser."

To Mr. Charllick is due the credit of a reduction in the rates of fare, while at the same time the comfort and convenience of passengers are in no particular neglected. See advertisement.

HON. W. H. TURNER.—This gentleman, Judge of the District Court, at Marysville, is rendering himself notorious for his judicial decisions, and for his insolence and ungovernable bearing in court. In one instance, after the clerk had entered an order by his direction, and signed it himself, he denied its existence, refused to let the attorney read it in court, and ordered him to take his seat, conducting himself, throughout, in the most overbearing manner. A member of the bar attempted to speak to the clerk in a whisper, and he was immediately stopped by this modern Solomon! His decisions have set at defiance the statutes, common sense and decency, and exhibit the most woful ignorance of order, law and justice.

Judge Turner's course is a fit subject for Legislative investigation. To say the least, it is the most remarkable of anything we have seen in the judicial proceedings of California, alike disgraceful and inhuman.

FROM VALPARAISO.—By the last steamer we are in possession of dates from this port, to Sept. 25. Business is dull. A large number of vessels bound down the coast in ballast, had arrived there since the 25th August. Many of these had shipments of specie or gold dust. The Fredonia arrived (31st August) with \$92,026 in gold dust. The Olga (Sept. 4th) with \$37,312. The British steamer Chile (8th Sept.) had \$10,000. The Dutch ship Trekoekel (16th Sept.) \$90,000. The American sloop-of-war Preble (9th Sept.) \$150,000. The Herman \$36,500. British steamer Bolivia (20th) \$325,190.

Large shipments of specie from Valparaiso, are also noted. On the 28th August the British steamer Peru took for Callao and intermediate ports, \$250,000; and on the 2d September, H. B. M. Frigate Inconstant, cleared for Rio Janeiro and England, having on board, as per manifest, \$180,000, which must be far below the mark, as the English ships of war never leave this coast without a large amount of specie.

THE WAVERLY HOUSE.—It was stated by President Bartol, last evening, in the Board of Assistant Aldermen, that this building is very much out of repair; that the rain penetrates through every part of the roof, and that it cannot be made suitable for the accommodation of the sick, without great expense. He was followed by Ald. Grant, who opposed the purchase of the Waverly House. Ald. Van Ness said he understood that the house did not leak last winter. The building was then, it is said, in the keeping of certain parties who were "copper-fastened." It strikes us that the purchase of the Waverly would be a very impolitic measure.

THE JENNY LIND.—This establishment was re-opened last evening, and the performance was probably received with all the favor to which it was entitled. The play was Macbeth, and the cast was said to be a very creditable one.

NATIONAL MONUMENT.—By a notice in another column, it will be seen that a meeting is to be held at the Union Hotel this evening, for the purpose of taking measures for the erection of a National Monument to Washington.

SEMI-MONTHLY MAIL.—Hereafter we are to have a regular semi-monthly mail between this city and Panama.

COMMON COUNCIL.

Monday evening, Nov. 25.

BOARD OF ALDERMEN.—Present, Ald. Green, Stewart, Selover, Minturn, Leonard, Mott, Middleton.

Petitions.—Of David Gero, Jr. to be appointed Steward of the City Hospital; referred to Com. on Health. Of certain persons, to plank California street, between Montgomery and Kearny; Com. on Streets. Of Wm. Neil Walton to construct a reservoir of pure spring water, proposing that the city purchase the lot recently occupied by Dr. Smith's Hospital, and appropriating \$200,000 to build said reservoir; Fire and Water Com. Of Macondray & Co., to construct a railway across Battery street; permission given. Of citizens against the grading and planking of Sansome street; Com. on Streets. Of A. G. Soule, asking to be appointed Physician to the Hospital; Com. on Health. Of Protection Fire and Sansome Hook and Ladder Cos. for a room over their apparatus for meetings; Com. on Fire, &c. with power to act.

Communications.—From the Mayor, returning, without his approval, the ordinance passed some time since, paying to Mr. Greene \$9,500 for the Ocean House, foot of Broadway [Ald. Greene took fire at this, and in a speech of half an hour, said a good many hard things in regard to the statements of the Mayor, denouncing them as false, &c.] He was followed by Ald. Leonard, who in his usual clear and quiet way, explained the history of affairs from the time of Mexican jurisdiction over the city. The bill was then passed by the constitutional vote, as follows:

Ayes.—Ald. Leonard, Middleton, Minturn, Mott, Selover, Stewart.

Nays.—None.

The physician at the Hospital reported the building in a leaky and otherwise bad condition; referred to Com. on Health, &c., with power to take any measures necessary to remedy the evil.

Dennis McCarthy, Esq., Street Commissioner of San Francisco, transmitted the assessments for the improvement of certain streets, and the same was confirmed. The same officer stated the fact that certain individuals had refused to pay their assessments for street improvements, and asked for action on the part of the Board to compel them. A resolution was passed authorizing the Finance committee to employ additional counsel to aid in legally compelling them to do so.

Ald. Leonard proposed to strike out the first section of the ordinance creating the office of City Guager, and suggested an amendment doing away with the compulsory provision.

A petition was presented signed by the largest and most respectable houses in town, asking for an entire repeal of that portion of the law forbidding the sale, or the offer to sell, of any liquors, oils, &c., without first being gauged. The vote by which the bill was previously passed was reconsidered, four to three, and the amendment adopted.

Ald. Selover introduced a resolution authorizing the Mayor to provide for three children left orphans. Adopted.

The Board of Health called the attention of the Board to the filthy condition of the City Hall. The City Comptroller was authorized to employ persons to cleanse the Hall, and he was required to report the number of rooms occupied, and the amount of rents received.

The Board of Health were authorized to sell such amount of city scrip as will meet their necessary expenses, not to exceed \$5000.

The Board concurred in the ordinance against keeping cattle confined without food, &c., more than 24 hours.

Reed & Dunn were allowed \$10 for conveying persons to City Hospital.

The Sergeant-at-arms was ordered \$150 for services.

Adjourned to Monday evening next.

BOARD OF ASSISTANTS.—Met at quarter to eight o'clock. Present, Ald. Bartol, (president), Morris, Van Ness, Corbett, Grant.

Minutes read and approved.

Petitions.—From Jas. Hackett to be appointed Steward of City Hospital; placed on file. From Edwin Bell and others, against the grading of Stockton street above Green street; referred to Com. on Streets.

Unfinished business.—The committee to whom was referred the location of the City Hospital, reported against the purchase of the building of E. W. Kimball for \$14,000 on Dupont street, near Sacramento street, and in favor of the purchase of the Waverly House for \$20,000.

After considerable discussion the bill was laid over till the next meeting. The board then adjourned.

DRAMATIC MUSEUM.—The performances at this place still continue as popular as ever. Robinson's local song only lacks one thing to make it decidedly popular. It omits all reference to the "strabismus street," that aquints so horribly towards a *quid pro quo* for adjusting the grade.

PEN-KNIFE SKETCHES.—No. 3.

BY AN OLD BLOCK.

A Trip to the Mountains.—Have you ever been up in the Gold Lake range? No. Well, we'll go then, for one of these days we want to introduce another character to your notice. The "New World" is just going out, so jump on board. I like the New World because she is a screamer—no—a steamer that goes as fast as a locomotive. Capt. Wake-man is a gentleman, a good seaman, and a go-ahead man. All this you see the moment you step on board, for every thing goes like clockwork from cabin-boy to Captain, and cholera, disorder, ragmuffins, and bad boilers might as well be—(spare the expression, my Pen-Knife, and stick to your text)—as get on board the boat. Whiz goes the steam, and we are off. By an easy transition from Sacramento City to Marysville, by steam, and thence on foot, (I like this ari tocratic and primitive mode of locomotion because you are never troubled with dyspepsia, or hunting strayed mules, and it gives an appetite for pork and beans,) we reach the first hills on Feather River, where Ophir City rejoices in a "local habitation and a name." Before us, the hills rise in moderate proportions, and on the north, Table Mountain stretches off as if Old Nick had set it out for a feast of giants, but knowing their jolly carousing propensities, has not even spread a cover of green foliage, but left it as bare as the tables in—Restaurant.

Between us and Table Mountain, Feather River rushes out of the canyon, a fine reservoir not only for crazy giants but for the thirsty miner. As we go over the well beaten road passing Long's and Bidwell's bars, the hills become longer, and more steep; the country more broken, and to reach Stringtown, on the South Branch of Feather, we go down a precipitous hill a mile long, a glorious slant for dare devil school boys to slide down, but a brak-back affair for us to climb with our packs. Now look at those duns along the Fork, the diggings deserted, the cabins empty, picks, pans, shovels, household furniture, old clothes, scattered about, a scene of "confusion worse confounded," and you naturally inquire why it is so. For forty miles along the river, even up the canyon, every bar was occupied by companies last winter and spring, who explored the country, opened roads, built good cabins, and often backed their provisions for miles in the rain, and as soon as the water subsided, they commenced digging races, and building dams, to turn the stream from its bed. There were perhaps two thousand men engaged in this laborious occupation, some building dams of rock, some of brush, some of timber, some with bags of sand, while others sawed out long plank from beautiful cedars, and built long flumes to carry off the water. For months they toiled in erecting dams, which cost from ten to twenty-five thousand dollars each, and the result was, that not a single dam paid the cost of erection, and in nineteen cases out of twenty, they got nothing, and dispersed, after all their labor, their high hopes blasted, to seek for gold somewhere else. An this accounts for their deserted cabins. There is gold, however, in that vicinity, for it has since been found in the gulches near the river, and some have done extremely well even by sinking shafts from ten to twenty feet. In this range another revenue of wealth is opened to science and industry. Let us climb the hill and get upon the ridge. It makes you puff, eh? It did me till I got used to it.

About four or five miles from Stoney Point is Pierson's bed of golden quartz. How many times have we passed over it without dreaming that there was a particle of gold there. But George, more thoughtful and persevering than we, conceived the idea of making experiments, in which he succeeded beyond his most sanguine expectations, for the rock yields thirty-seven and a half cents per pound, and there is every facility for working it. The upshot will be a fortune. In spite of California customs, he is an honest man, and deserves his good luck. I've known him these ten years, and—no matter. The strata of rock, from the first hill to the mouth of the Middle Fork, is slate, but then commences a coarse rotten granite, intermixed with quartz, which continues up about twenty miles when, presto! change! the slate again presents its dark perpendicular front, while the ground is covered with lava, and volcanic debris, proving beyond a doubt that this was the port hole of old Vulcan's workshop. Ascending steadily for two days through dense forests of dark pines, for miles forcing our way through a network of chaperel, at length we stand on a towering mountain which overlooks Grass Valley. On this mountain, the snow was four feet deep in July, and it is no difficult matter to find it *five years old*, which, I have been told, is capital for washing. I, however, generally contented my plebeian disposition with more common water from

the river in my laundry manipulations, and I'll be hanged if I would climb that hill to get snow for the handsomest washer-woman in—tut, tut, my pen-knife, you are getting dull.

But a beautiful scene opens to the view. The valley, which is several miles in length, though narrow, is bounded by high mountains, from which flow the waters of the South Fork of Feather River; on the northeast a bald cone raises its crest two thousand feet above the valley, and about midway to its summit, a huge outcrop of dark slate stands out like the time worn portals of some ancient castle.

The valley is dotted with groves of evergreen pine, and the south fork, here only a brooklet, meanders thro' till it is lost in a deep canyon, a little below. Rich diggings are in this range, and another season will develop them, but we can't stop to prospect now. We pass up the valley a few miles, when, after a laborious ascent up a long, steep mountain, passing in our way a bare volcanic rock, that looks as if it had been the lining to a monster furnace, for its cracked and glazed sides show that unquestionably it had been exposed to the most intense heat, we arrive upon a ridge at least two thousand feet high, which, in many places, is only a few rods wide. Here a scene is presented which beggars description. Shut in completely by lofty mountains, you stand upon an apex, with a most magnificent panorama around you. On the left is a gulf which the eye cannot fathom, and the view beyond extends over a mountain country till "earth and Heaven blend," while on the right there seems to have been one grand breaking up of the universe. East and south, the snow-capped peaks of the Gold Lake Mountains rear their lofty heads to the clouds, with a long ridge of lesser hills fading away in the distance to the south, while a spur runs down towards the valley, in which deep and dark gulches yawn at every turn, with a strata of gray rock occasionally peering out like "elfin sprites," till it terminates in a bold, naked, table mountain, of conical form, which stands a landmark to the coasting miner, above the hills which are the boundary of Grass Valley. An experienced eye will detect three or four extinguished volcanoes in the view, some of which I have visited, but all around is one scene of terrific and violent irruption.

"The fool hath said there is no God," but no man can look upon that scene without awe, and he involuntarily ascribes to Almighty Power the upheaval of the confused mass before him. As I stood gazing long in astonishment, I felt how small I was among the atoms of creation, and I could have asked the atheist if it was not the power of Him who can "make and destroy," which directed the chance that caused this mighty revolution.

Beyond this is a country difficult of access—nothing but—

THE UNDERSIGNED, who established the first wholesale Drug House in California, under the firm of Dr. Rabe & Co., has sold out his whole stock to Mr. Charles R. Story, the successor of C. C. Richmond & Co., by which the two largest establishments have become united.
 It is with pleasure that I am able to recommend Mr. Charles R. Story's establishment, knowing his personal ability in his business, and having myself sold to him a stock of Drugs entirely fresh, (all my old stock was consumed in the great fire.) The whole of these new goods were selected by me during a recent visit at the North, and were put up by me, regardless of price, and of the best quality. To persons acquainted with the Drug business, I need only say, that they were put up by Haskell & Merrick, of New York.

In this retiring from the Drug business, to be better enabled to attend solely to the practice of Law and Notarial Business, I herewith tender my thanks for previous patronage, and beg leave to transfer the same to my successor, Mr. CHARLES R. STORY, corner of Montgomery and Washington sts. n26 2t

To the Editor of the Daily Pacific News—

Sir: You will confer a great favor by giving the within a few insertions in your valuable sheet, for the benefit of your readers and the community at large, that they may be satisfied with the affair that occurred a few months ago, concerning the elopement of my daughter from her husband, Isaac Graham. The reward offered for Jesse J. Graham, you will please insert for six months, and oblige

Very respectfully, yours, &c.,
MARY BENNETT.

SEPTEMBER 27th, 1850.

Mrs. Mary Bennett—

DEAR MOTHER: I presume that you are very much surprised at my sudden departure. I was very sorry to leave without telling you I was going, but I knew that you and my brothers and sister would not let me come away; and I was so tired of being beat and having bowie knives drawn over me, (for twice that old brute Graham drew his bowie knife across my throat till the blood ran down my breast, and I expected every day he would kill me,) and finding it impossible to please the old tyrant, I believed that my only chance was to leave him or be murdered by his hand. So I thought it would be better for me to go to a foreign country, where I would not be troubled with him any more. I see by the Daily Pacific News of the 16th of May, that I have been accused of having a love with me, which you and the citizens of Santa Cruz pronounce to be false, and which is absolutely false. I did not nor never will degrade myself so far as that; and I see by the same paper that you and my brothers and sister have been cruelly treated on account of my departure, of which you all are innocent. I left without the assistance or knowledge of any of you. I would not take so much trouble to tell of your innocence, but I wish you to show this, my handwriting, to all the people, where I am, that let who will say that either my mother, brothers or sister assisted me to get away, or knew anything about it, they tell a positive lie, and the truth is not in them. The paper did not state what had happened exactly; it said Mary Ann had been honorably acquitted of being accessory to my flight, and that Jackson offered two thousand dollars, and the county of Santa Cruz one thousand dollars for Jesse Graham. I am very sorry to see that my child was brought as a witness against my innocent sister, which Graham himself was the murderer. I say he murdered it, because it was an act that I received from him. His hands were its death. Instead of my living with a lover, I am living in a worthy man's family, after a voyage of four months. I have suffered very much from sickness, and my children have both had some sickness, and are not in very good health now, but they are about. I am miserable since I heard that news. I wish I had stayed and been murdered by his hands; it would have been better for me to die than to live and know that my dear people had suffered so wrongfully: perhaps suffered death on account of my departure as I said before. I am living in a worthy Englishman's family, but I shall never be happy again in this world. I hope these few lines I have traced by candlelight may find you alive and well, but I am afraid they will not. If we meet no more in this world, I hope we may meet in Heaven above. May God be with you all; my children are baptised, and I shall be soon; give my love to all my friends, my dear brothers and sisters, while I remain your ever affectionate daughter,
CATHERINE GRAHAM.

Said Mr. C——, a Presbyterian minister of some notoriety, "I never laughed in the pulpit only on one occasion, and that came near procuring my dismissal from the ministry. On one of the first discourses I was called to deliver, subsequent to my ordination, after reading my text and opening my subject, my attention was directed to a young man with a very foppish dress, and a head of exceedingly red hair. In the slip immediately behind this young gentleman sat a young urchin, who must have been urged on in his devilry by the evil one himself, for I do not conceive the youngster thought of the jest he was playing on the spruce dandy in front of him. The boy held his fore finger in the hair of the young man about as long as a blacksmith would a nail rod in the heat, and then placed it on his knee and commenced pounding his finger in imitation of a smith making a nail. The whole thing was so ludicrous that I laughed; the only time that I ever disgraced the pulpit with any thing like mirth."

The New York correspondent of the Philadelphia Ledger, speaking of returned Californians says:

I have seen and conversed with three or four rough and ready Californians who came passengers in the Cherokee. All of them are printers by profession, but started off for the land of "big lumps" three years since. When they left New York four finer looking fellows were not to be seen. Now they look more like orang outangs than anything else, having shaved but twice since they left Gotham. Their skin was white once, now it is difficult to tell what color it is; but it is any thing but white. They have accumulated a handsome fortune, however, but one and all of them agree that if they were sure of doubling their gains they would not go through half the suffering and privation already endured.

Washington Alston, the day before his death, speaking of Coleridge, said: "He was the greatest man I ever knew, and one of the best—a thousand times more sinned against than sinning."

PROCLAMATION!!!

The Governor of the State of California, to all to whom these presents may come; Greeting:

In compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, who wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47 1/2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other north or east of us, in California; and the grain growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH.—Listen, now!—The average summer heat is 75 to 80 degs., with cool nights; no mosquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED.

KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deer of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of \$1.50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. ol6

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c. &c.

Whereas, Jose De Arnaz filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Forbes, Robert Walkenshaw, and John Parrott, filed in the Clerk's Office of said court at San Jose, on the 5th day of October, 1850, by the said plaintiffs, to recover from you the possession of a certain tract of land; being a portion of the Rancho de la Canada de los Capitancillas, alias San Vicente, and bounded and described as follows, viz: all the western portion of said rancho lying between the rancho de las Capitancillas, belonging to William Wiggins, and the arroyo de los Alamitos, with a tract lying east of and along said arroyo, of half a mile in width, and running to the Sierra, which land, and more especially the Mine, Hacienda, and appurtenances of New Almaden, thereon situate, the said plaintiffs claim as their property, and that you unlawfully retain possession thereof since the first day of February, 1845. Wherefore they pray to have you ejected from the same, and to recover from you seven hundred thousand dollars, as the rents and profits thereof since the said 1st day of February, 1845, and also three hundred thousand dollars damages for the trespasses and wrongs by you committed thereon.
